

Emergency medical personnel are permitted to perform only those skills listed under their licensure level, and only once they have been trained on those skills, and credentialed to perform those skills by their local EMS Medical Director. Emergency medical personnel are permitted to administer only medications listed under their licensure level, and only once they are trained in the pharmacology of that medication, and credentialed to administer that medication by their local EMS Medical Director.

Key to Provider Levels	
EMT	<b>E</b> Emergency Medical Technician
EMT-I	<b>I</b> Emergency Medical Technician-Intermediate/85
AEMT	<b>A</b> Advanced Emergency Medical Technician
CT	<b>C</b> Cardiac Technician
PMDC	<b>P</b> Paramedic

**NOTE:** If a provider code (the single letter code from the table above) is listed for a particular skill, then that level of EMS provider is permitted to perform that skill. Interpretive guidelines serve to clarify and/or modify the skill listed. If an asterisk (\*) appears with the letter code for a specific provider level, then the interpretive guidelines may modify the skill for that provider level.

Airway and Breathing Skills	Levels	Interpretive Guidelines
1. Supplemental oxygen therapy	<b>E</b> <b>I</b> <b>A</b> <b>C</b> <b>P</b>	This would include any type of cannula or mask designed for the delivery of oxygen.
a. Oxygen delivery devices		
b. Humidified oxygen	<b>E</b> <b>I</b> <b>A</b> <b>C</b> <b>P</b>
