

## SECTION 16000

### GENERAL

#### 1.01 CONTRACT DOCUMENTS:

- A. All work of Section 16 shall comply with the requirements of:
  - 1. Specifications
  - 2. Drawings
  - 3. Modifications incorporated in the documents before their execution.

#### 1.02 WORK INCLUDED

- A. This Division of the specifications (16000) covers the complete interior and exterior electrical system for all work shown on the drawings as specified herein providing all material, labor and equipment required for the installation of the electrical systems complete and in operating condition.
- B. Include in the electrical work all the necessary supervision and the issuing of all coordinating information to any other trades who are supplying work to accommodate the electrical installations.

#### 1.03 DRAWINGS

- A. The drawings for electrical work utilize symbols and schematic diagrams which have no dimensional significance. The work shall therefore, be installed to fulfill the diagrammatic intent expressed on the electrical drawings.
- B. Coordinate electrical work with existing conditions. Provide fittings, junction boxes and accessories to meet conditions.
- C. Do not scale drawings. Dimensions for layout of equipment, or spaces shall be obtained from field measurements unless specifically indicated on the electrical drawings.
- D. Discrepancies shown on different drawings, between drawings and specifications or between drawings and field conditions shall be promptly brought to the attention of the Engineer.
- E. Provide as used on the drawings and in the specifications shall mean, furnish, install, connect, adjust and test.
- F. The drawings and specifications are complimentary and any work or material shown in one and omitted in the other, or described in the one and not shown in the other, or which may be implied by both or either, shall be furnished as though shown on both, in order to give a complete and first class installation.
