

1.07 MAINTENANCE AND OPERATING INSTRUCTIONS:

- A. Provide at the time of final inspection three sets of maintenance and operating instruction for:
 - 1. Automatic Transfer Switch
 - 2. Engine Generator
- B. Furnish a qualified and accredited factory trained technician to train personnel designated by the Owner in the proper operation and maintenance of specialized equipment.
- C. The issuing of operating instructions shall include the submission of the name, address, and telephone number of the manufacturer's representative and service company for each item of equipment so that service and spare parts can be readily obtained.

1.08 CODES AND PERMITS:

- A. All electrical work shall meet or exceed the latest requirements of the following codes and/or other authorities exercising jurisdiction over the electrical construction work and the project.
 - 1. The National Electrical Code (NFPA 70) - 2017 Edition
 - 2. The National Electrical Safety Code (ANSI C-2)
 - 3. The Life Safety Code (NFPA 101) - 2012 Edition
 - 4. The International Building Code - 2012 Edition, with Georgia Amendments.
 - 5. Regulations of the local utility company with respect to metering and service entrance.
 - 6. Municipal and State ordinances governing electrical work.
- B. All required permits and inspection certificates shall be obtained, and made available at the completion of the work. Permits, inspections, and certification fees shall be paid for as a part of the electrical work.

1.09 DEVIATIONS:

- A. No deviations from the plans and specifications shall be made without the full knowledge and consent of the Engineer or his authorized representative.
- B. Should the Contractor find at any time during progress of the work that, in his judgment, existing conditions make desirable a modification in requirements covering any particular item or items, he shall report such items promptly to the Engineer for his decision and instruction.
