

3. Loan Continuation Fee. Section 4(c) of the loan agreement states that in the event the Borrower fails to draw funds within six months of loan agreement execution, GEFA will assess a Loan Continuation Fee as published in the Lender Fee Schedule, which is available on GEFA's website. The Loan Continuation Fee will be assessed every month thereafter until the Borrower makes an initial draw of funds from the loan for the project or reverts the loan commitment.
4. Federal Requirements. Carefully review with your engineer, consultants and counsel as necessary the federal requirements listed in Exhibit D of the loan agreement.
5. Construction Interest. Interest accrued on funds drawn during construction will be billed and collected monthly during construction by use of electronic debit transactions. Construction interest will be charged and collected monthly only on the outstanding balance of funds disbursed to date.
6. Amortization Schedule. The monthly installment amount is not provided within the loan documents because the Borrower may drawdown less than the entire loan amount. As a courtesy to our customers, GEFA provides an estimated installment amount based on information provided within the loan documents. If the full amount of funds indicated in the loan documents is disbursed to the project and all requirements for this project are met, the installment amount will be approximately \$8,732.21 per month throughout the life of repayment.
7. Future Audits and Financial Compliance. Within six months after the end of each fiscal year, the Borrower will deliver to GEFA a copy of the Borrower's financial statements as required under the state audit requirements (O.C.G.A. Section 36-81-7) and a compliance certificate stating the Borrower is meeting the 1.05 times debt service coverage ratio, as detailed in the Loan Agreement. The loan agreement includes a full faith and credit pledge supporting this obligation.
