

5. Consideration of DCA Community Quality Objectives

The Department of Community Affairs (DCA) has crafted a series of objectives dealing with a broad range of issues that concern local governments. The objectives, which are listed below, are only recommendations, but provide local governments with a tool to guide them in the assessment of their needs and opportunities and in the development of their implementation activities. If they are used as such a tool by many of the local governments in their planning efforts, these objectives also have the potential to result in consistent planning projects and goals, which may translate into greater efficiency and a better quality of life for the residents. This section contains an analysis of the consistency of the community's current policies, activities, and development patterns with the Quality Community Objectives, and recommends related best practices as provided by DCA.

Quality Community Objective	Notes on consistency with Comprehensive Plan for Lowndes County and the City of
<p>1. Economic Prosperity Encourage development or expansion of businesses and industries that are suitable for the community. Factors to consider when determining suitability include: job skills required; long-term sustainability; linkages to other economic activities in the region; impact on the resources of the area; and prospects for creating job opportunities that meet the needs of a diverse local workforce.</p>	<p>Community activities, including economic development efforts, are consistent with this objective. Recommended best practices:</p> <ul style="list-style-type: none"> • Downtown Business Resource Center • Business Incubator • Downtown program • Job Center • Workforce Training
<p>2. Resource Management Promote the efficient use of natural resources and identify and protect environmentally sensitive areas of the community. This may be achieved by promoting energy efficiency and renewable energy generation; encouraging green building construction and renovation; utilizing appropriate waste management techniques; fostering water conservation and reuse; or setting environmentally sensitive areas aside as green space or conservation reserves.</p>	<p>Land use element and goals and policies related to natural resources are consistent with this objective. Recommended best practices:</p> <ul style="list-style-type: none"> • Pervious paving • Riparian buffers • Water resource protection • Green government practices • Green Space Plan • Heat Mitigation • Recycling Program
