Heather Sindt	5433 Baobab Ln Lake Park, Georgia 31636	heathersindt3@gmail.com	I work at Moulton Branch Elementary School. A facility of this nature has no business being so close to an elementary school.	5/31/2022
Glee Rice	3275 Stallings Road Valdosta, GA 31605	glecsummersrice@gmail.com	This housing development needs to be moved further away from Moulton-Branch Elementary School. I'm all for giving these men a place to transition back into society, but the temptation for some of them may be too great, being so close to a school. Take it elsewhere.	5/31/2022

Christy	5034 Carriage Drive Lake Park, Georgia 31636	japspeach@yahoo.com	I live in Lake Park, Ga. However, my daughter attends in an home daycare which is located off of Howell Road. I do not feel safe with this facility being built so close to my daycare providers home, especially with the tenants of the facility having no supervision or security. I've dealt with very close family members that are/have been recovering addicts, and they can be dangerous and unpredictable. If the developer refuses to have the facility relocated to his own property, then that should tell you something.	5/31/2022
